

If You Cannot go Across—Come Across, Buy Victory Bonds

Eleventh Year, No. 34

GLEICHEN, ALBERTA, THURSDAY, NOVEMBER, 8 1917

\$1.50 Per Year

Why does Canada Raise Money by Selling Bonds?

BONDS are issued payable in ten or twenty years, as the case may be. It means that repayment of the money will be spread over ten or twenty years instead of being raised by taxation to meet current expenditures.

To raise by taxation all the money as fast as it is needed to carry on Canada's share in winning the war, would be an unbearable burden upon the people.

It would mean that more than a million dollars a day would have to be raised right now.

But to raise money by selling Canada's Victory Bonds means that those of the next generation who will benefit by the sacrifices this generation is making;—who will share in the freedom this generation is fighting for and largely paying for—will also pay their share.

And when you buy Canada's Victory Bonds you make a first-class business investment in a security that is absolutely safe, likely to enhance in value after the war, and bearing a good rate of interest.

You help the country by keeping open the British market for Canadian products and this helps the general welfare in which you share.

And again, every Canadian who buys a Victory Bond becomes a financial partner or backer of Canada in the war.

When you buy a Canada Victory Bond

you give a personal pledge that you are going to help to win the war.

Every man and woman in Canada can help to win the war by buying Canada's Victory Bonds. And Canada wants the personal, individual interest and co-operation of every man and woman in the country.

The buying of Victory Bonds by the whole people is a determination to win the war.

Every purchase of Canada's Victory Bonds is a blow for freedom against the tyranny of German Kultur.

Every bond sold is a new guarantee that Canada is in the war to the finish, until victory is with the Allies and the world has been made safe to live in.

Every bond you buy is a new pledge that Canada will remain true to herself, the Empire, the Allies and to freedom's cause.

So it is both patriotic and good business to

Buy Canada's Victory Bonds

DON'T MISS THE POINT

There is a man in this part of the world who represents, to our way of thinking, a pretty good average of human nature. Whenever the preacher in his church delivers a very hot sermon against some special kind of sin this man gets enthusiastic and goes around to the vestry to tell the preacher what a fine sermon it was. Then he goes home and repeats it to his brother, and they talk over the points and the people the sermon hit hardest. But this particular man never sees when the sermon hits him.

This month the biggest public campaign ever put on in Canada is opened to get subscriptions for the fourth Canadian war loan, the Victory Loan. The thing the people in this district must bear in mind is: that the appeals are directed to each and every one of them. It is not merely the well-off men and women who are being asked to invest. It is everybody. The little sermons that are being "preached" in the advertising should not be taken as hints to the well-to-do people only. Every man and woman should watch for these advertisements and start now to gather up the necessary money to buy either a fifty or a hundred or a five hundred or a thousand dollar bond. In the United States there were about 4 subscribers to the first American loan out of every 100 persons. They only received 3½ per cent. In Canada for the last war loan there were only about 41,000 subscribers or say 4 in every 700. Yet in Canada the interest is much higher—on the Victory Bonds that will probably be issued to yield about 5½ per cent.

The first thing anyone should do, in our opinion, is to get rid of the idea that there is any sacrifice involved in investing in this loan. It is true that the patriotic spirit

is appealed to and it is equally true that a great and generous response is expected on that ground. But the new war loan is a straightaway business proposition: safe, profitable and convenient. Every man and every woman with as much as fifty dollars to spare should own one of these new bonds, and not only that, but should help to show others the worth of these bonds by recommending them everywhere. The readers of this paper are among the most thrifty, prosperous and public spirited in the Dominion. When the subscriptions to the Victory Loan are added up from the various districts and sub-districts we expect them to show that this part of the great Dominion has been true to its traditions and just to its opportunities.

Compulsory Service in 1863

It is a matter of record in United States history that President Lincoln, after attempting to prosecute the civil war with volunteer troops at last, in 1863, turned to conscription in order to secure the necessary forces.

Since Lincoln is regarded as one of the greatest statesmen this country has produced, it is instructive at the present stage of Canadian history, to see how he dealt with the problems that arose.

The President was warned that grave disorders might follow the enforcement of the conscription law, which it was argued was in opposition to the constitutional principle

of the liberties of the citizen.

Lincoln took the ground that democracy means an equal share in the burdens, as well as in the blessings of a republic and decided on the firm enforcement of the law. All opposition was firmly repressed. On entering the present war, the United States profited by past experience and promptly adopted compulsory service.

Now that Canada has adopted a similar course she is in a better position to do her full share and though opposition is unlooked for, repressive measures are provided in the Act.

The Cluny Red Cross Society will hold a dance in the School House on Friday evening, Nov. 23. Mrs. Trainor's orchestra will supply the music. Proceeds of the dance to go towards the purchase of a piano.

For The Prevention of Bribery

In setting up the machinery for the operation on the Military Service Act, special care has been taken to select only officials of the most trustworthy character. In the operation of the Act, attempts at bribery are always possible, in Canada no less than in other countries says an Ottawa despatch.

Attempt to bribe any member of an exemption tribunals or medical board, or a military representative, means a term of imprisonment of not less than one year and not more than five years. It will be very difficult for anyone so inclined to set aside the regulations of the Military Service Act by corruption.

Not all the preparations made to guard against venality and unfairness in the operation of the Act can be made public, but it may be announced that attempts to bribe officials, in view of the checks and supervisions to be imposed, be an exceedingly hazardous business.

The wedding of Lafronwa Francis Hall, eldest daughter of Mr. and Mrs. John Prowse of Cluny, to Pte. Robert Cunningham, of the Calgary Medical Corps, was solemnized by the Rev. John White at the bride's home on Wednesday, October 24. The bride wore a pretty dress of shadow lace and white satin and had a bouquet of white roses and orange blossoms. Misses Edna Prowse and Jean Forsythe were the bridesmaids. At high noon the wedding dinner was served, when bouquets were presented the ladies of coronations and roses to the gentlemen. The happy couple left mid showers of rice that afternoon for Banff, the bride dressed in a blue silk travelling gown.

Good Progress Made on Cluny Bridge

BY JOHN GLAMBACK

The committee elected by the
Farmers Union to look after the
progress of the Cluny bridge made
an inspection trip over the grounds
last week and found the work pro-
gressing fairly well considering all
the material is now on the spot or
at Cluny. Mr. Simms, the bridge
foreman, informed us that the
greatest difficulty now was getting
experienced or skilled workmen.
They were hard to get and still
harder to keep, he said, and just as
soon as they had a good man broke
in to where he was of some use he
generally left. We inquired about
what wages the government were
paying and were told that experi-
enced bridge carpenters got \$5 per
day, while green hands started at
\$4 and paid 30 cents per day for
board. But as the fool farmers
have been paying \$5 per day and
board to any Tom, Dick and Harry
who could handle a pitch fork, it is
not to be wondered at that most
men would prefer that instead of
doing the very dangerous work on
the bridge, for less money. As a
matter of fact working on a farm,
which a few years ago was consid-
ered the worst paid and low-
est kind of work, anybody could do,
has become one of the best paying
jobs as far as the west goes. As
there is now all over and the
ground frozen up so only grain
haulers will be needed from now on,
the government should have no
difficulty in getting men. I may
state, that in case there are carpen-
ters or any one else who will or can
do bridge work they should apply
at once to the bridge foreman for a
job. The question of why the gov-
ernment had changed its original
plan of building concrete piers, we
were told it was found that the
bottom was not solid enough and
that it was feared the water would
wash the soil away from under the
concrete. The piers now being
built will be filled in with rock and
are claimed to be able to with-
stand ice and any other kind of a
jam. One third of the distance ac-
ross has already been built and work
on the first pier in the river was to
begin that day. There will be two
piers in the middle of the stream
and one at each approach. With a
full gang of workmen the work
will be finished by the time the ice
goes out. Mr. Simms informed us.
On the south side of the river the
gang, that built the new ferry was
just starting to work. They are to
erect a three 30 foot span of a
bridge across another smaller
stream running into the river at
that point.

A grading gang with 8 teams has
been working on the hill on the
south side of the river for some-
time and have made good progress.
The grade will be half a mile or
more long and a 60 per cent grade.
The grade will be level and looked
good to us grain haulers. Another
week or so will see it well on its
finished up. There is a fine gravel
pit in one of the hills cut out and
signs of a coal mine in another.

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent
of rainfall, and in some good crops, not
occasionally, but every year.

Irrigation makes possible the successful
culture of alfalfa, the king of fodders, which
insures good returns in dairying and mixed
farming.

Irrigation means intensive farming and close
settlement with all the advantages of a densely
populated agricultural community.

Irrigation in the Canadian Pacific Railway
Irrigation Block is no longer an experiment,
the years that it has been tried having ab-
solutely demonstrated its success wherever it
intelligently applied.

You can buy irrigated land from the Can-
adian Pacific Railway at prices up to \$50
per acre, with 20 years to pay and the priv-
ilege of a loan of \$2,000 for improvements.

(5% interest; no principle after first pay-
ment until end of fourth year, reduced in-
terest if settlement conditions are complied

and no water rental for first year. Contract
can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "filch" his car on an
open stretch. You'll like it, and will be surprised how easily this
Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is some-
thing good in store for you. It is vastly different from just riding—being
a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—
are driving Ford cars and enjoying it. A Ford stops and starts in traffic
with exceptional ease and smoothness, while on country roads and hills
its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

DON'T DELAY! Do It TODAY

THE MILITARY SERVICE ACT is passed; the Procla-
mation issued October 13th. It is now the bounden duty
of every man in Class One to report for service or claim
exemption. This includes all bachelors and widowers without

What To Do

for claiming exemption. The form contains clear instructions for filling
in. Do this not later than NOVEMBER 10th.

Beware of the Last Minute Rush

With so many thousands of reports and claims to be dealt with, the rush
of Class One Men will grow heavier day by day. You will waste less of
your time and serve your own best interests if you avoid the inevitable
rush on the last days.

The law is being enforced with the Government and the People firmly
behind it. Obey the law. Do it today.

A farmer came into Glover's office and said: "I don't know much about this Victory Loan, but I do know it's got to be put over. Gleichen citizens were surprised on Thursday when it was made known that Joe Crowfoot the only surviving son of old Chief Crowfoot, of North-West Rebellion days, had died very suddenly. For several years past Joe has lived just on the outskirts of our town and although completely blind he was familiar on our streets accompanied by his wife Susan. His going out removes the last of Chief Crowfoot's family. Many of our older citizens will remember the old Chief, who was more than an ordinary Indian, a man of shrewd and sagacious character of whom much has been written, as he figured in an important part in rebellion days. Joe has joined his predecessors of the past and entered the happy hunting grounds, leaving his wife Susan and son Joe to mourn his loss.
